

GOOGLE MY BUSINESS VERIFICATION

What is Google My Business?

Google My Business lets you connect directly with customers, whether they are looking for you by Google Search or Google Maps. It gives customers the correct info at the right time, whether it be directions to your business in Google Maps, Business Hours, or a phone number they can call you on. Google My Business can help you build a loyal Client base. Your customers can show their appreciation with ratings and reviews.

Google My Business works exceptionally well for businesses that have a local target audience. It is also ideal for businesses taking their 1st step into the online marketing world and the perfect tool to list your contact information.

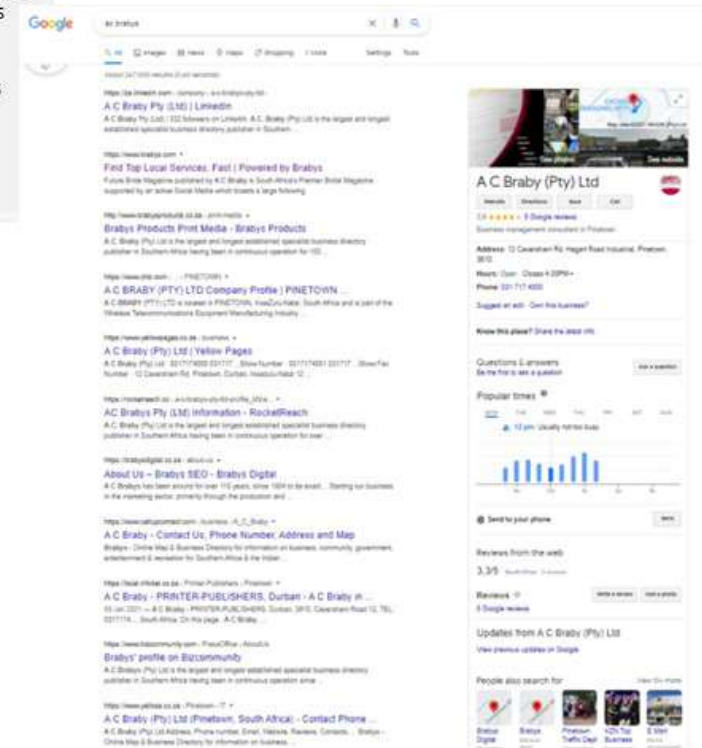

Benefits:

- Your Potential clients can find you easily.
- Your Potential clients can use various platforms- such as tablets, desktop computers, or a smartphone! Your potential clients can easily access info about your business on any device with an internet connect.
- Extremely important company information and news can be displayed here for potential customers to see.
- Gain Relevance and Authority which can aid you with your SEO (Search Engine Optimisation) in the future.
- include images of your business (Products/services/Business premises)- The more information we continue to add to your account, the higher your business will rank in the Google search engines.
- Display a button which will take potential clients directly to your website.

What you get

A modern, visual Google Listing that is best for Local Area Searches:

- Easy Navigation
- Call to Action
- A section describing your company
- Image gallery - showcase your work
- Map - allows users to find you
